MEMORANDUM FOR THE CHAIRMAN OF THE CCISCMS AND MEMBERS OF THE DCI SECURITY FORUM

SUBJECT: Charter for the DCI Security Forum

1. During past meetings of the Forum some members have raised the question of preparing a Charter. I have been in favor of publishing a Charter for some time. The Forum needs a Charter to implement DCID 1/11 and to specifically state its functions. I have prepared a draft which I am sending for your comments. I would ask that members be prepared to discuss the specifics of the draft at the next meeting of the Forum.

2. In the past year, since the disestablishment of the SECOM and the creation of the Forum, we have become little more than a clearing house for DCID revisions and republications. Clearly, DCID 1/11 goes beyond this. In addition, criticisms of the Intelligence Community security processes by the Congressional Oversight Committees in the wake of recent espionage cases are not being addressed. The Forum should take the lead in examining their recommendations and suggesting corrective actions to the DCI. Among these are a more rigorous need-to-know policy, dissemination of intelligence with minimal source identification, renewed emphasis on finances in SBIs, providing more stringent requirements for reinvestigations, and considering an exit interview requirement for persons being debriefed from SCI.

3. Other issues which should be addressed are: polygraph as a requirement for SCI access, expanded SBI requirements, identification of the troubled employee combined with a crisis management effort, the creation of outplacement programs for employees terminated for cause, a revisitation of the Community posture on associations with foreign nationals and foreign travel, and a study on polygraph technology/techniques and countermeasures.

4. The above is not intended to be an all inclusive list of the problems and issues which need attention. Upon review I hope that each of you is in a position to discuss these and add to the list at our next meeting.
